

Mobisol is hiring a

IT Administrator (Working students & Interns are welcome) (f/m)

Location: Berlin, Germany

Mobisol is a leading German company for Solar Home Systems (SHS) dedicated to delivering a clean, affordable alternative to fossil fuels for low-income households living without access to reliable energy. Mobisol products combine solar energy with innovative mobile technology and microfinance. Mobisol is currently serving over 75.000 system installations in Tanzania, Rwanda and Kenya where Mobisol has own organizational entities. Mobisol is in a rapid scaling phase with the goal to reach hundreds of thousands of households – thereby stimulating economic and social development in developing countries while simultaneously contributing to global environmental protection.

Mobisol is currently looking for a quick-thinking and open minded character to maintain and improve our heterogeneous, intercontinental IT environment as

IT Administrator (Working students & Interns are welcome) (f/m)

As IT Administrator you will assist the IT Helpdesk in providing high quality IT-Services to our staff in our Berlin/Tanzania & Rwanda Offices. In this position, you will be responsible for:

- **Server Monitoring** – Primary task would include maintaining and configuring our server monitoring infrastructure. Monitoring business critical servers and services is vital to providing a stable operating environment. Our candidate will be first point of contact for setting up and maintaining custom monitoring and alerting scripts by using Zabbix.
- **First Line Support on our Ticket System** - Support our team and IT administrators in Germany and Africa
- **Stabilization and improvement** - Scale, extend and harden our IT environment
- **Share your ideas with us** - Develop and implement new ideas and technologies to meet our special IT needs

Qualification

- An interest in Server monitoring / metrics – experience with Nagios, Zabbix, New Relic or Icinga would be beneficial. A real data driven can-do attitude is required to ensure you are drilling deep to dig out all relevant data.
- Experience with Linux (Ubuntu / Debian or Red Hat / CentOS)
- Lan / Wan Networking knowledge
- Windows Desktop support 7 / 8 / 10
- Experience with any helpdesk / Ticket System

These qualifications are a can - not a must. More important is that you are customer focused, able to take the initiative and eager and motivated to develop your skills. English is our company language, German skills are an advantage.

Perspective

The position offers you the chance for deep insights and experience into an IT- Administration working across three continents. You will work for a company which is committed to product quality, design, user friendliness and environmental sustainability. You will be part of an outstanding international, highly motivated team of individuals who combine professional expertise with personal passion.

How to apply

If you feel intrigued by this challenging opportunity, please send your application (letter of motivation, cv, references) with the subject line **“IT Administrator”** to jobs@plugintheworld.com. If you have any questions, please contact Mr. David Senftleben at: +49-30-9700-2556.
