

Information about our school:

Masarykovo gymnasion, Střední zdravotnická škola a Vyšší odborná škola zdravotnická Vsetín, the Czech republic

Our high school is situated in a centre of town Vsetín.

It is a complex of **three schools:**

- a **General grammar school** – the study lasts 4 years, ages 15 -19 (one class with study for 8 years– with pupils from age 11 – 19) of academic education – preparing our pupils for colleges and universities. We have special groups which excel in music, drama, languages and the arts

There are about 800 students and 60 teachers.

- a **High vocational nursing school** - the study lasts 4 years, ages 15 - 19 where mostly girls study . After school they can start to work in hospitals or in other health establishments as the health assistants. Or they can continue their studies.

There are 200 students and 20 teachers

- A **Higher vocational school for nurses** - the study lasts 3 years, ages 20 – 23. After school they get a leaving certificate with a diploma State registered nurse which is accepted in the whole Europe.

There are 150 students and 15 teachers.

The study in our school is aimed at the practical and theoretical knowledge and skills of nursing, languages, psychology, communication strategies, experience in management and administration, pedagogics, sociology and a law.

There are taught many special subjects :

Nursing in Internal medicine, Surgery, Paediatrics, Gynecology and obstetrics, Home care, Hospic care, Education to health, Nutrition, First aid, Nursing training at school and practical training in hospitals.

Science branch subjects: Anatomy and Fyziology, Patology, Patofyziology, Microbiology, Biophysics, Biochemie, Farmacology, Radiology.

Social science subjects: Psychology, Communications, Sociology, Management, Foreign languages, Latin, Informatics, Czech language, Maths, Physics, Chemistry, Civics and PE.

There is one common Student council for students of all 3 our schools and they meet each month to discuss, solve problems or suggest ideas how to improve anything regarding to school or study.
